Duration: 2 Hours

➤ **Heavy Rigid Non Syncro (HR)**

Duration: 2 - 3 Hours

➤ **Heavy Combination Non Syncro (HC)**

Duration: 2 - 3 Hours

➤ **Multi Combination Non Syncro (MC)**

Duration: 3 - 4 Hours

The Course Objectives

- The course will benefit individuals who want to advance their future career opportunities in transport and logistics or would just like to refresh their established skills.
- It is a perfect addition to any personal resume, as it shows perspective employer's that you have not been wasting your time between jobs, and that you are ready to join their team.
- Is a great addition to your business's **pre employment** process to ensure you get the team members with the skills you need
- It is also the most ideal way for businesses to identify any gaps with their employee's and shows that the business is serious about training and skills building for their team.

Please Note: Course duration and costs can be tailored to suit specific needs and requirements, for further information please contact one of helpful team members.

What the evaluation covers

- Basic road knowledge
- Pre start checks
- On road skills
- Off road skills (reversing)
- Observations
- Post operation checks

On completion of this course you or your employer will receive a detailed gap analysis to help identify if there are any areas that need improving, there is also a final percentage score... *for those people that relate to numbers!*
