

To whom it may concern,

TDT Training Australia are a valued RTO to our organisation, providing quality and affordable training for our jobseekers. The team at TDT, lead by Toni, are always friendly and approachable, keeping us up to date on courses available in our area and informing us of the progress of our jobseekers in current courses. The courses in the Transport & Logistics field are conducted in a timely manner and are held regularly, which means our jobseekers are able to get up-skilled without a lengthy wait. Our jobseekers have had great success in gaining new skills and formal qualifications recognised Australia wide which more importantly, has lead to employment outcomes. This would not be possible without the team at TDT and the courses that they provide.

Karen Jones - Business Manager East Gippsland, Mission Australia
